

Your Asian Fulfillment Partner  
For Immediate Release

**Quantium today launches its overseas forwarding services, 2YOU4, in Osaka, for general consumers as part of its fulfillment services, eFulfillment, targeting e-commerce traders.**

Our eFulfillment services have been widely used by e-commerce traders as part of the EFFECT's international shipping management system, Raku-Raku System, which allows e-commerce traders to forward shipments with no minimum quantity requirements. Available in multiple languages including Japanese, English and Chinese (simplified), EFFECT's user-friendly primary functions are provided for smartphones to meet the global shipping and overseas forwarding needs of general consumers living overseas who wish to shop from Japanese online shopping sites.

**Tokyo, February 26, 2014** - Quantium Solutions (Japan) Inc. (hereinafter "Quantium", Headquarters: Ota-ku, Tokyo, Representative Director: Yoshihiko Sasaki), is a wholly owned Japanese subsidiary of Singapore Post. Quantium today launches **2YOU4** (<https://www.2you4.jp>), overseas forwarding services for general consumers from the Osaka Branch (Location: Suminoe-ku, Osaka), as part of its fulfillment services, eFulfillment (<http://www.ezyfulfillment.jp>), an one-stop solution for overseas online shopping and distribution services.

- I. Free membership registration to obtain a transit address in Japan.
- II. Shop at favorite stores in Japan and specify the registered transit address for the destination of the goods that you purchase.
- III. Make a forwarding request using an easy-to-use transit request system designed for PCs and smartphones.
- IV. After payment has been made, sit back and wait for your package to arrive at the transit address overseas.

A forwarding request for **2YOU4** will be completed in simple steps provided above.

With **2YOU4**, a smartphone-supported system available in multiple languages including Japanese, English and Chinese (simplified), Quantium not only offers services to help e-commerce traders export goods from Japan through our EFFECT's international shipping management system, Raku-Raku System, but we also offer inexpensive, easy, safe and convenient overseas shipping fulfillment services to general consumers using Japanese online shopping sites from overseas.

As with the EFFECT, **2YOU4** allows customers to ship merchandise purchased on multiple sites to a forwarding shipping address in Japan in batch.

In response to the global shipping and overseas forwarding needs, Quantium is committed to offering reliable and trusted services by proactively considering additional multilingual services and value added services tailored to the needs of general consumers living overseas.

### **About “EFFECT”**

The fulfillment service include stock control, merchandise inspection, picking, packing, preparation of export documents, shipping and delivery for e-commerce traders. This comprehensive shipping support for overseas e-commerce, have been launched in November 2012, accomplished by allying Quantum’s warehousing control and shipping system with the on-line shipping function provided by Japan Post.

Specifically, after e-commerce traders deliver their merchandise to Quantum, Quantum perform receiving inspection and storage and stock control. Upon receiving shipping instructions from e-commerce traders, Quantum pick and pack products, prepare and create all necessary export documents and delivery labels for Japan Post’s Express Mail Service (EMS) or international e-packet, and ship the goods to buyers in other countries. Shipped merchandise is delivered to purchasers all over the world through Japan Post’s international mail network.

Because EFFECT service provides one-stop logistics, e-commerce traders can simplify the process from stock control to delivery. The service can handle small-sized transactions, which is particularly helpful for small and medium-sized e-commerce traders that plan to expand their e-commerce activities overseas because it reduces outsourcing costs.
